Certificate No.: C604179
Place and date: Vimercate, 25 October, 2023
Revision No.: 00

Certificate history:

Revision	Description	Issue Date
00	Initial issue	25 October, 2023

Products covered by this Certificate:

Product Name	Description
Aluminium extrusion profiles	Geometry: Radially Finned Cylindrical Piping Grades: 3000 and 6000 series Manufacturing process: Extrusion, cooling and stretching.

Limitations:

Initial inspection on the production site has been carried out by DNV Business Assurance B.V., ref. Assessment Report SC538264-2023-AR-IA-00 dated 2023-10-16

Terms and conditions for the certificate

- in case of damages caused by defective products, Council Directive 85/374/EC, as amended, will apply;
- the system approval is valid only for the material types listed above. For other material types, an application for extension of the certificate must be sent to DNV Business Assurance B.V.
- periodical audits will be held, where deemed necessary by DNV, supplemented by unexpected visits, in order to verify that the manufacturer duly fulfils the obligations arising out of the approved quality system;
- the manufacturer shall fulfil the obligations arising out of the quality system as approved and uphold it so that it remains adequate and efficient.
- the manufacturer must give information of any intended adjustments of the Quality System to DNV Business Assurance B.V., who will assess the changes and decide if the Statement remains valid;
- the manufacturer shall inform DNV Business Assurance B.V. of the intended schedule of production for materials.

The following may render this certificate invalid:

- changes in the quality system affecting production;
- periodical audits not held within the allowed time window.
